“The best way to predict the future is to create it.”

Career Objectives

A very dedicated computer and Computer Science enthusiast, with a lifelong love of coding, in particular front-end and web application development. Extremely determined and committed to achieve the best result possible. Looking to expand domain knowledge and develop advanced technical skills as part of a front-end/full-stack cloud/web/software development team.

Relevant Employment

Crowder Consulting

Wirral, Merseyside

SENIOR SOFTWARE DEVELOPER

Sep. 2021-PRESENT

Lead front-end developer in the company. Team lead to a small front-end centric development team, in a hybrid contemporary work environment, focussed on Angular and front-end tooling. Tasked with mentoring of new developers, getting them up to speed with the business processes. Architect and owner of projects across the wider development such as the mobile application, charting and authentication.

SOFTWARE DEVELOPER

Sep. 2019 - Sep. 2021

Professional agile application development experience. 3+ years of hands-on experience with Angular as a front-end framework, in conjunction with the supporting back-end libraries required to power a very large, data-driven, live, cloud based, offline-first PWA, to a stakeholders requirements. Ensuring maintainable and fully tested code is delivered to a specified high standard.

GRADUATE SOFTWARE DEVELOPER

Dec. 2018 - Sep. 2019

A developer in a small agile digital services platform team. Tasked to undertake all preliminary proof of concept work for a future, business critical, greenfield, cloud-native micro-services powered web and mobile PWA. Further tasked to undertake the initial development of the project prior to on-boarding of additional developers from the wider company. Simultaneously responsible for maintaining the legacy Java code-base when required.

Further Employment

Dept. of Transportation and Resources, Wirral Borough Council

Wirral, Merseyside
